Fall is a wonderful time of year for fall wedding favors. The gift that you give to your guests is a small and touching gesture from you and your partner. Autumn is a great time of the year for perfect favors of vibrant, deep colors.

Here are a few fall wedding favor ideas that are full of color!

There are so many colors available to you that when picking out the perfect favor you can just wrap it in all different colors. There are wines, ciders, jellies and pumpkins available depending on when in the fall you are getting married. Then wrap them in a fall color to complete the fall wedding favor look.

When you have made your choice on the date of the wedding, and know that it is in the fall, you will have many colors to choose from. You can put them on your tables, as well as use them for the wedding favors. There are browns, oranges, reds, yellows, and dark brown.

You could have some fall leaves on your table with some really good chocolates in a nice box with your date of your wedding on them. Everyone loves chocolate and the leaves give it the feeling of fall.

Fall wedding centerpieces can be very nice by adding the fall colors into the setting. With the leaves on the table, adding some vines, you can then place candles with some berries wrapped around the candles to complete the look.

There are also flowers that would be in season for the table and the cake table that would bring the whole room together with a great flow.

You and your partner want to be unique and have this wedding about both of you. With a fall wedding you can use anything as a favor and wrap it to make it look very special.

You could give wine bottles that have the date of the wedding on it. Or you could have candles with your anniversary picture on it so they will think of you every time they light their candle.

Fall is a great time for a wedding. Fall wedding favors are easy to choose because of this time of year. You can make it as simple as a pumpkin on a table with some leaves to add color or place candles on each table with roses in the color of autumn. The room can be great with deep rich color to it and you can decorate based on it.

These are just a few fall wedding favors ideas. You can research more at any wedding favor website.
